

Polyurethane Line

EXTREME & COMFORT

EXTREME LINE

Developed for sports and off-road cars, offers a higher stability, delivering precision in extreme conditions

COMFORT LINE

Same hardness as the OEM bushings but 10 to 15 times longer working time when compared with similar rubber bushings

EXTREME Line (Hardeness 90 shore A)

This line was developed for vehicles with original or sports suspension and offers a higher stability, delivering precision to the drive, thus thanks to the bushing's higher rigidity when compared to the OEM. Perfect for use in off-road and sports vehicles.

Linha desenvolvida para veículos com suspensão original ou esportiva proporcionando maior estabilidade e rigidez a suspensão, graças a buchas mais rígidas do que as originais de fábrica, uso perfeito em veículos offroad e esportivos

Línea desarrollada para vehículos con suspensión original o deportiva proporcionando mayor estabilidad y rigidez a la suspensión, gracias a los bujes más rígidos que los originales de fábrica, uso perfecto en vehículos offroad y deportivos

COMFORT LINE

(Hardeness 70 shore A, Same as the OEM bushing)

This line was developed for vehicles with original or modified suspension, providing the same stability and comfort of the OEM bushings, but with the advantage of having a higher average working life, 10 to 15 longer when compared with similar's made of rubber

Linha desenvolvida para veículos com suspensão original ou modificada, proporcionando a mesma estabilidade e conforto das buchas originais de fábrica, mas com a vantagem de ter uma durabilidade em média de 10 a 15 vezes maior do que as originais de borracha.

Línea desarrollada para vehículos con suspensión original o modificada, proporcionando la misma estabilidad y comodidad de los bujes originales de fábrica, pero con la ventaja de tener una durabilidad media de 10 a 15 veces de vida útil comparada con los similares de caucho
